About This Game

SiFi Interactive Room with integrated VideoPlayer and beautiful Girl who will tell you a story, how humanity went into space.

This is. In this experience you can:

Take out girl out of hibernation pod,

control Where the girl should go,

you can make the girl dance,sit, and exercise

you can also spawn detectable objects

The experience has also integrated file browsers with video player, (also direct loading of ogg audio file from game folder).

This experience has no gameplay dynamic, its VR experience to relax and chill out.

OS: windows 7/8/10

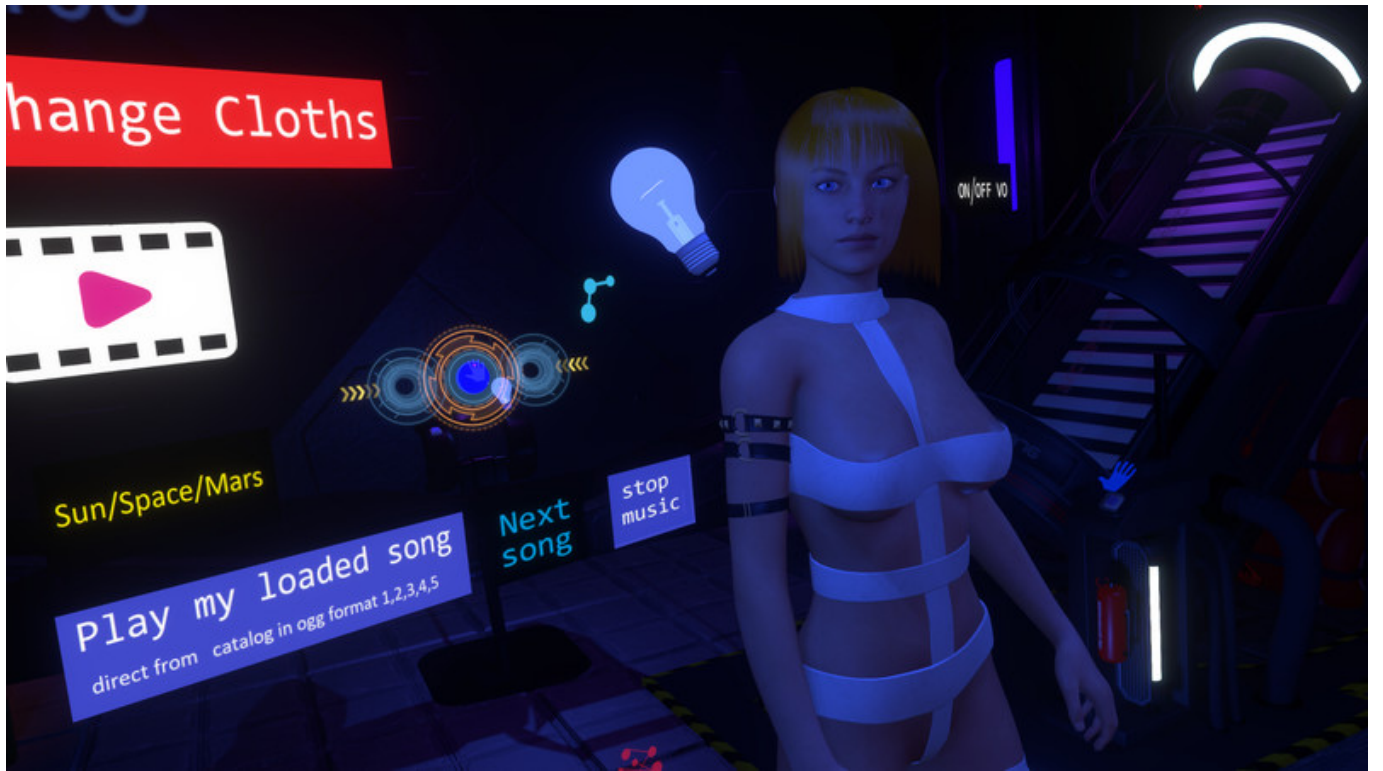

Processor: i5

Memory: 8000 MB RAM

Graphics: gtx 1080

Storage: 2500 MB available space

English

Awesome graphics and interaction... just needs to go a lot farther. Fun but leaves SO much more to be developed. Could be adult oriented... or game oriented... either would sell. Right now it's just a great demonstration of VR potential.
