The screenshot displays a digital card game interface. The central focus is a card titled "Bosk Banneret" with a mana cost of 1. The card's artwork depicts a large, ancient tree with a green and copper banner draped over its branches. The card's type is "Creature — Treefolk Shaman" with a power/toughness of D12. The card's text reads: "Treefolk spells and Shaman spells you cast cost 1 less to cast." Below this is a flavor text: "Deep in a murmuring bosk, where the trees' memories span centuries, the simple banner of green and copper signifies an elder whose rings number more than a faerie's days." The artist's name, "Ralph Horsley", is at the bottom left, and the set number "1/3" is at the bottom right.

On the left side of the interface, there is a panel with the following elements:

- A button labeled "1 Unlocked".
- A section titled "88 Cards in Deck" showing three card thumbnails.
- A button labeled "SAVE CHANGES".
- A button labeled "BACK".

On the right side, there is a panel with the following elements:

- A button labeled "0 Locked".
- A "ZOOM OUT" button with a magnifying glass icon and the number "33".
- A small thumbnail of the "Bosk Banneret" card.
- A button labeled "UNLOCK CARD".

Forest's Fury is broken and will reset so you can not permanently unlock cards. Not happy at all.. A couple new decks to keep the game fresh.. Forest Fury is broken for many players. That's one of two decks in this DLC. Unlocked cards will reset to 0V20 when ending the game session and reloading the game. I guess they want you to pay extra for the full deck unlock? Let's not pretend as if this will ever be fixed.. Instead of earning your decks while in game you can buy them at a small price. With this downloadable content you can unlock this deck and use it at your discretion forever. This is a great thing to do but you might be wasting your money if you already know that you can unlock the deck already in game while just playing. This purchase just makes customizing decks easier and more convenient since you'll be unlocking the deck right away. I do suggest buying this little shortcut if you are too lazy to earn it while in game or think you can't earn it while in game. If you plan to play online then its a great idea to buy this downloadable content to make sure your not at a disadvantage while playing your opponents. To unlock decks in game you have to beat certain players in the campaign which at times can be a challenge but very rewarding since you unlock decks. This DLC deck unlock is there if you need it and if you know you don't then don't buy it and earn all the decks while in game.
